

Geography 222

Laboratory 0

Introduction

Connecting to the Remote Desktop

You can use your personal computers for the labs this semester or you can choose to use the remote desktop login below

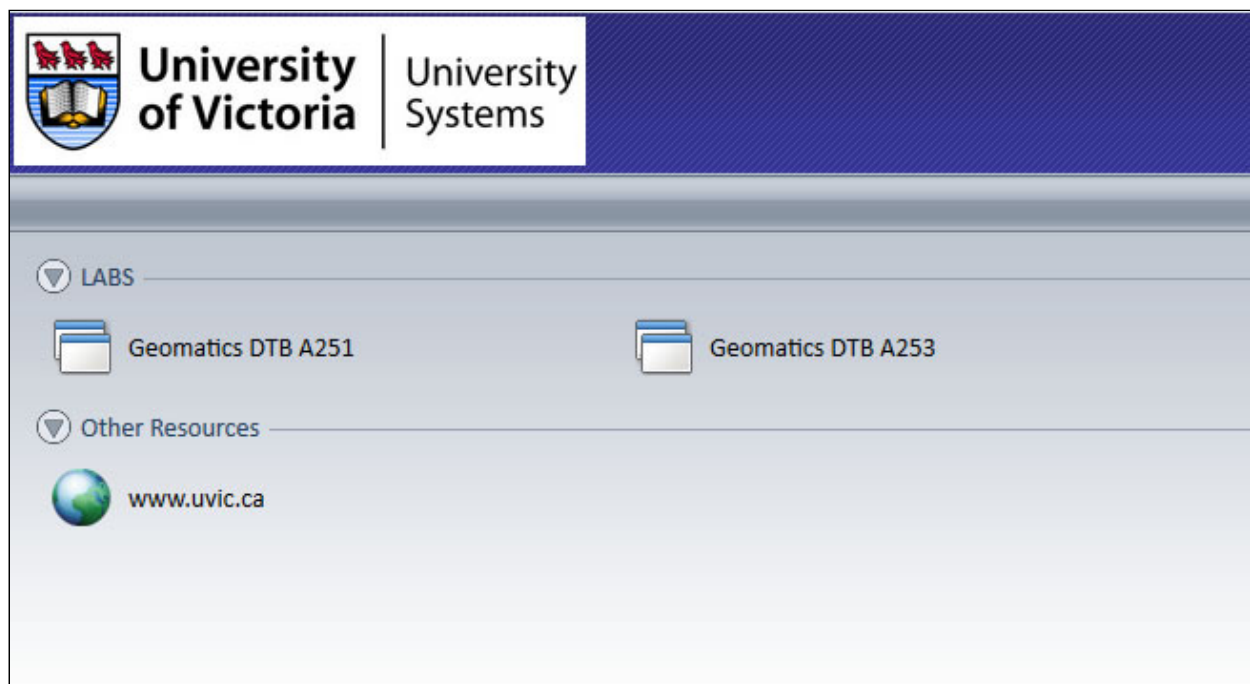

If you have a Mac computer you will need to download the **Microsoft Remote Desktop software before proceeding**

Remote Login for the geomatics teaching labs is available here: <http://remotelab.uvic.ca> or <https://remotelab.uvic.ca/my.policy>

1. Login with your **uvic.ca\netlink ID** and **password**

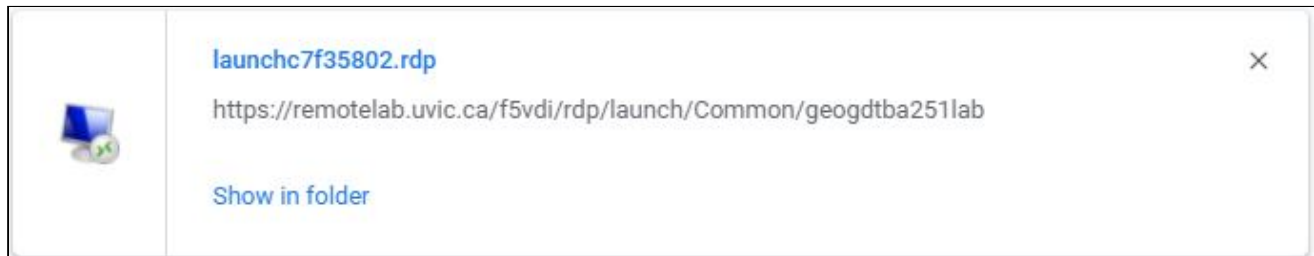

If you are on a windows machine you may be asked to enter your credentials. If so, choose More Choices → use a different account → **uvic.ca\netlink ID** and **password**

2. Once you are logged in, choose room A251

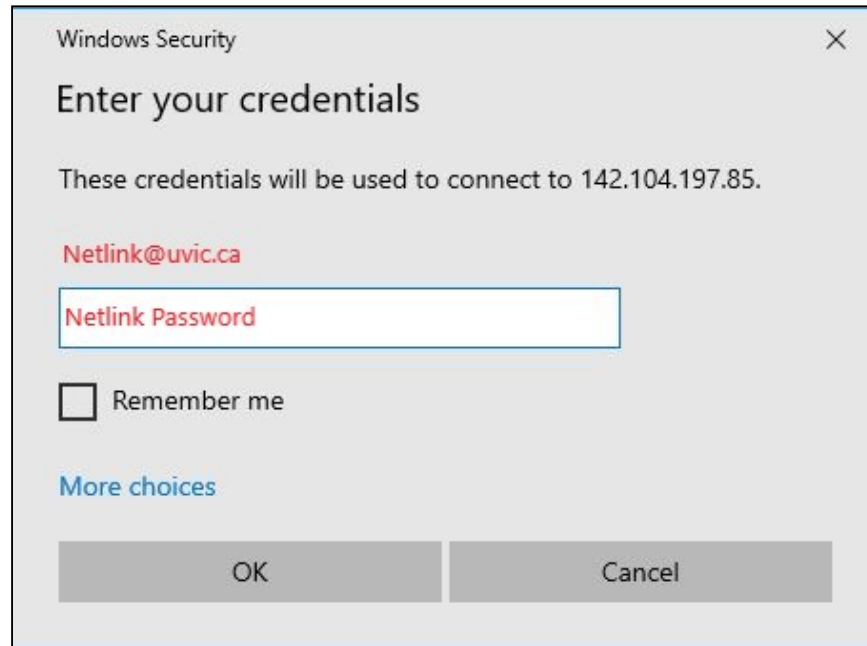

3. Then click OK → Connect

- Once you select a computer to logon to, a temporary launch app will download and you will be able to connect to computer.
- Please be patient as it takes time to download the app.

- The app will ask you to sign in with your Netlink id and password.

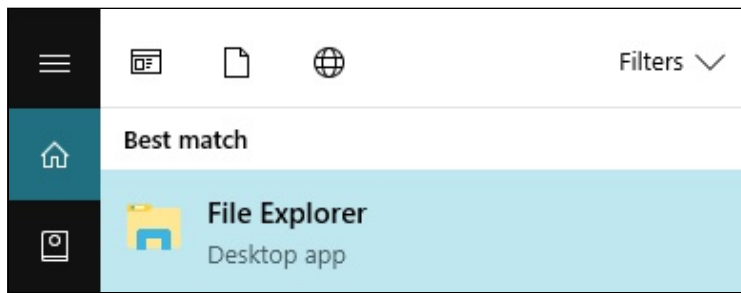

- After finishing your lab you will need to sign out of the computer. You will be automatically signed out after 2 hours.

If you do not have access to the remote classrooms please contact Rick Sykes rsykes@uvic.ca with your netlink ID, email, and class registration.

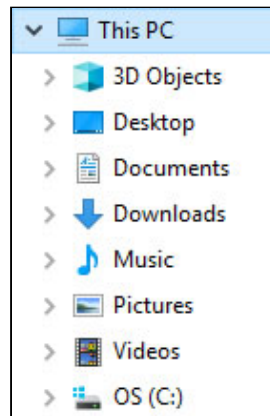

Geomatics Storage Drive

If you are logged into the Geomatics computers, you must save your work on the geomatics storage drive. To access the drive, follow the steps below:

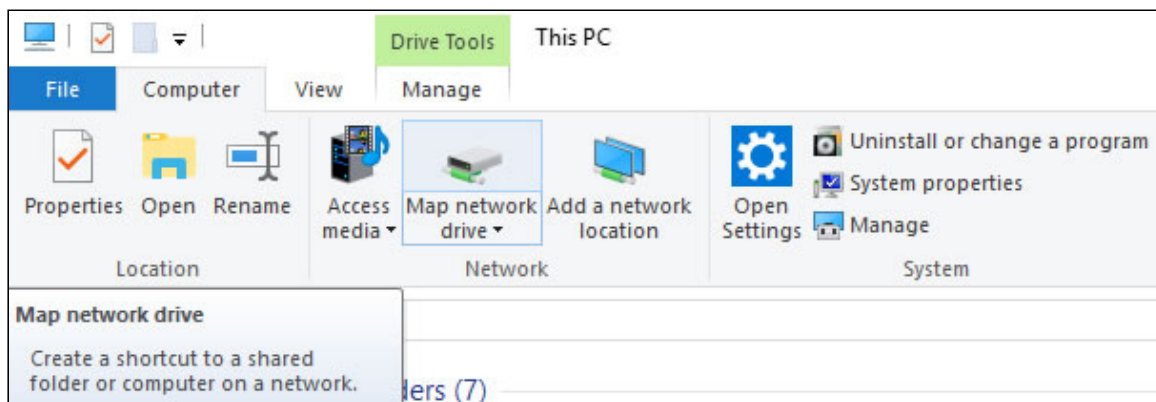

1. Open **File Explorer**

3. Select: **This PC**

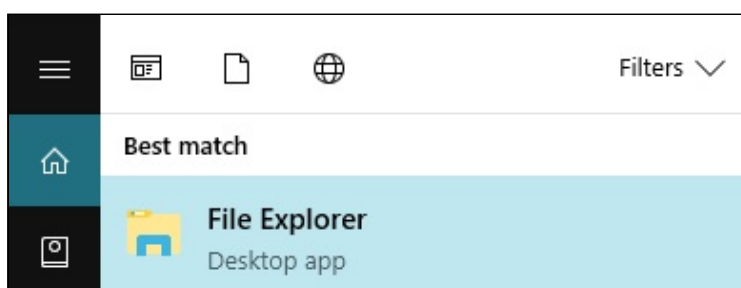

4. From the ribbon options, choose the **Map network drive** button

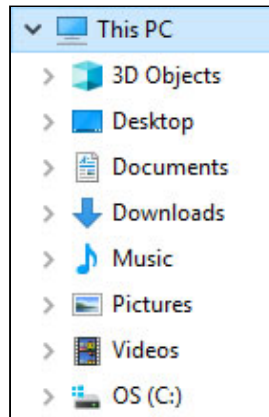

Geomatics Storage Drive

If you are logged into the Geomatics computers, you must save your work on the geomatics storage drive. To access the drive, follow the steps below:

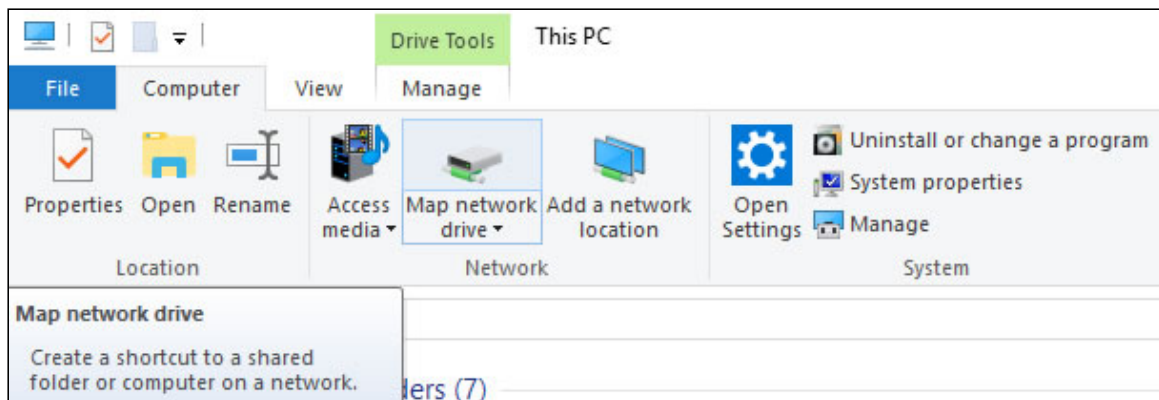

1. Open **File Explorer**

3. Select: **This PC**

4. From the ribbon options, choose the **Map network drive** button

5. Select the network parameters as follows:

- Drive: **Z:**
- Folder: **\\geomatics.storage.uvic.ca\geomatics\netlinkID**
 - Note that you have to edit **netlinkID** text as your netlink ID (everyone has a folder labelled as their netlink ID)
- Select **Finish**

Now you have a network location to save your data and output files to for the remainder of the semester. You will have to map your network drive the next time you log on.

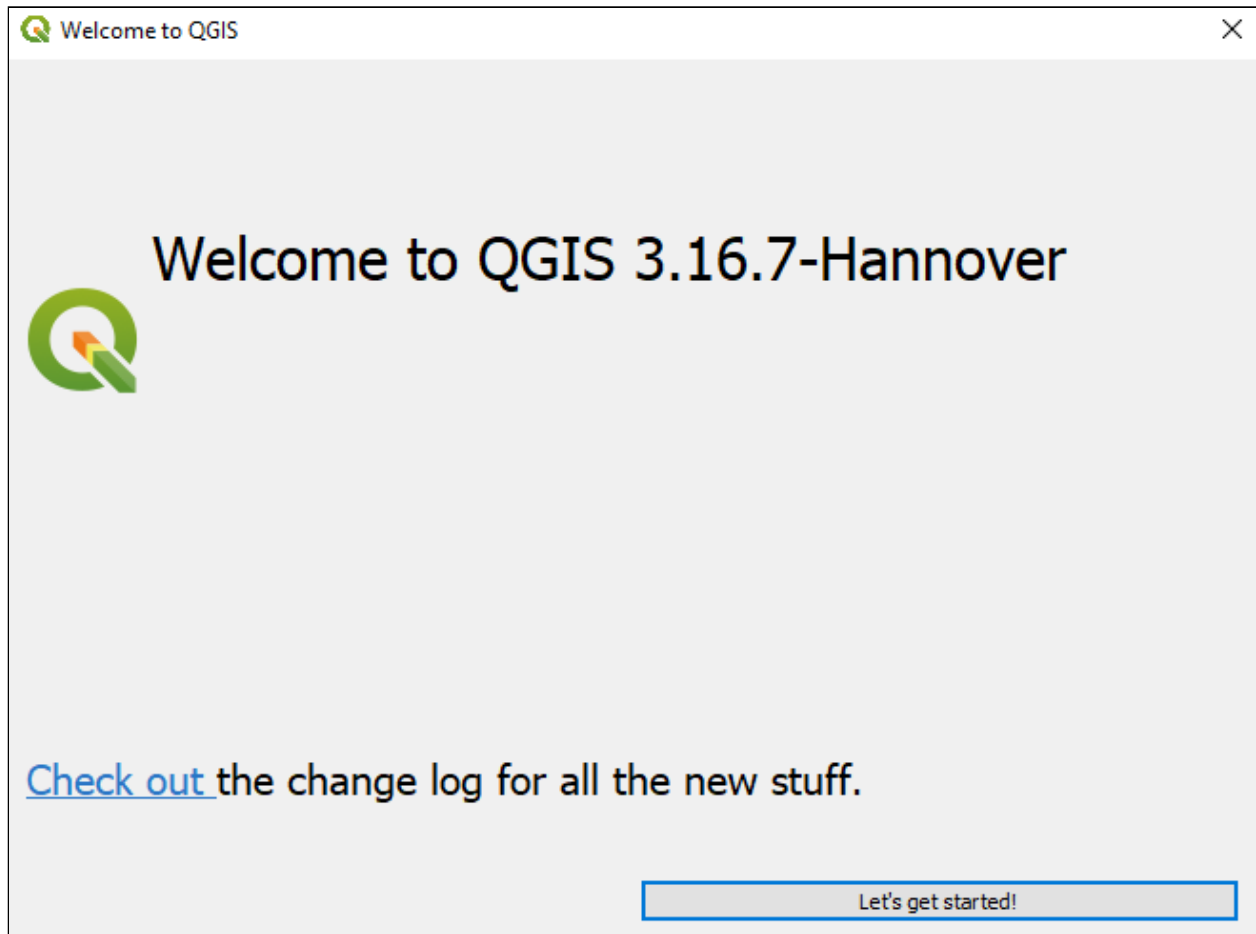

ArcGIS Online Login

Access your UVic registered email, and sign into your ArcGIS Online account

- Do not add personal details to your accounts - use the alias provided

Opening QGIS

1. Open the windows start menu → search "QGIS 3.16.7" → select the program
4. Select "Lets get stated"

Now the QGIS program is loaded on your profile and ready to use.
